- :: **Scalable to thousands**
- :: **24/7 Customer Care**

Why should you use Encounter's Audio Solutions?

Reliable technology

No outsourcing here. We own and operate all of our teleconferencing equipment, so you can count on clear and reliable service straight from the source.

Globally available toll-free numbers

With service to over 60 countries, you'll benefit from international rates that are among the industry's lowest.

Choices

From instant reservationless conferences between two participants, to white-glove events for thousands, you're not limited to a one-size-fits-all solution.

Easy set-up, no limits

You can start making conference calls right away. There are no set-up fees and you're not limited to a certain amount of minutes or number of calls.

Audio Control Panel

This simple but powerful interface gives you the ability to control your conference calls from any web browser. Audio Control Panel allows you to:

- :: Bring attendees from music-on-hold into the live conference
- :: Mute and Unmute Individual attendees
- :: Accept questions from attendees
- :: View the number of attendees connected to your conference
- :: View call entry time and duration of attendees on your conference
- :: End conference with the click of a button
